Ariel view of an airport

What happens at an airport?

Everyone flying out goes to departures to find out their flight details and check in.

People take their ticket to check in where they give in their baggage and get a boarding card.

Your passport is checked for security reasons.

Security checks your luggage for items that are not allowed on your flights.

You might spend some time in the airport shops.

Once you have checked in you have to wait for your flight to be called.

The baggage is taken from check in to the aircraft.

People get on board by a jetty - or by walking on board.

Find your seat and enjoy the flight.
