Regional Construction Director

Sam Williams
Senior Construction Manager

Stonebond. 

INSERT SITE IMAGES

We're building 67 homes for local families!

It begins with the foundations!

We also prepare pipes and drains underground

We use big timber frames - just like giant LEGO!

It helps houses go up quickly and safely

Then we add bricks,
roofs, windows, and
doors

Inside - plaster, paint, kitchens, carpets - and it feels like home

We always wear safety gear to protect ourselves

That big fence keeps everyone safe – you should never go inside

We plant trees and
look after wildlife on
site

We're building homes
and helping nature

You're Part of It Too!

Stonebond

We'll be doing fun things with your school - like planting trees or a time capsule.

The new families might have children who'll join your classes!

**You can ask us any
questions?**
